

Heel Shift Eliminator Made in the USA!

INSTRUCTIONS

(Please read entire sheet before beginning install)

Parts included:

- 1 Heel Shift Eliminator Spacer
- 1 Nylon Washer

Installation Steps:

1. Remove the bolt clamping the heel shifter in place. Slide the heel shifter off.
2. Remove the bolt clamping the toe shifter in place. Take note of the angle at which your toe shifter is installed for reinstallation. Slide the toe shifter off. The bolt holding the toe shifter on will be reused.
3. Slide the heel shift eliminator spacer onto the shaft in the location where the toe shifter was before removal.
4. Slide the washer against the spacer, then slide the toe shifter against the washer. You may install at the angle at which it was removed or any other comfortable angle.
5. Using thread locker, install and tighten the clamping bolt from step 2. Make sure the toe shifter is at a comfortable angle and is pushed in to take up any slack in the shifter rod.
12. Go for a ride!!!

General Notes:

- The rider's safety depends on the correct installation of this kit. Please do not attempt if you have any doubts of your ability to install.
- We recommend blue thread locker be used on all thread.
