

## *Passing/Driving LED Bulbs*

### **Parts included:**

2- Led Bulbs

### **Installation Instructions:**

1. Remove the outer ring from the passing/driving light housing.
2. Remove the bulb housing from the assembly.
3. Unplug and remove the stock bulb.
4. Install your new LED bulb being careful not to touch the yellow diodes.
5. Reinstall your bulb housing into the assembly the same way it was removed.
6. Reinstall the outer ring and go for a Ride!!!!

### **Important Notes:**

- The rider's safety depends on the correct installation of this LED bulb. Please do not attempt if you have any doubts of your ability to install.
- When wiring this headlight to your bike, make sure to make good connections.
- **We STRONGLY recommend using blue (medium) thread locker on all threads.**
